# Introduction

## 1. Introduction

### 1.1 Residency Malta Agency

Residency Malta Agency is the Government entity responsible for managing and promoting Malta's residency-by-investment programme. The Agency is consistent in its rigorous efforts to attract quality individuals and families, applying a stringent four-tier due diligence process that ensures the most meticulous of screening.

### 1.2 The Malta Permanent Residence Programme

The new Malta Permanent Residence Programme (MPRP) is based on the strong foundations of the old Programme and crafted with the involvement of all stakeholders to ensure a competitive proposition that ultimately gives beneficiaries more value.

### 1.3 Legal Framework

The MPRP falls under the Immigration Act. By the virtue of S.L. 217.26, a third country national who is issued with a certificate in terms of these Regulations is entitled to the right to reside, settle or stay indefinitely in Malta together with one's registered dependants.

Should there be conflicting views between this Handbook and the legislation, it is the legislation that prevails.

# Process Flow

## 2. Process Flow

There are 7 main steps for a third country national to be able to reside, settle or stay indefinitely in Malta through the Malta Permanent Residence Programme. Below is an explanation of what happens in each step:

### 2.1 Power of Attorney

The Power of Attorney (POA) is the first step in the application process. Through the signing of the POA document the Main Applicant empowers the licensed agent to act on his/her behalf in terms of the MPRP.

### 2.2 Submission of application pack and issuance of receipt

The licensed agent is required to submit an application pack on behalf of the applicant. The file should be submitted complete and correct to Residency Malta Agency and a receipt will be issued as confirmation of submission.

### 2.3 Due Diligence

The Agency applies rigorous scrutiny via a four-tier due diligence process in order that only persons and families of repute are attracted to the Programme. Residency Malta Agency and the licensed agent share the responsibility of verifying all information provided by the applicant, ensuring all details are complete and correct. The first step is where the agent applies KYC principles when onboarding applicants.

The Agency's team then employs the second tier of due diligence. The application's completeness and correctness are verified. This involves identifying anomalies that highlight any potential risk. The documentation submitted to the Agency is checked in its entirety to ensure validity, for example of notarised and apostilled documents and translations. Applications with missing documentation are paused until the agent submits them on behalf of his client.

The third step is obtaining clearance from police authorities following thorough checks including checks against Interpol and Europol data.

A thorough and in-depth online investigation is then undertaken. International databases are consulted to check for sanctioned individuals and companies. Searches are conducted on all family members applying for residency, their corporate affiliations, any significant one-time transactions, donations, inheritance, significant business partners and associates.

The Agency's analysts finally put together the applicant 'story'. In cases where more clarity is required, further questions are put to the applicant to ensure it has the right and proper picture of the family's application. Where necessary, information is bounced back with the due diligence companies to ensure coherence.

## **2.4 Issuance of a Letter of Approval in Principle or Rejection**

The final applicant file is presented to the Approvals Board which then takes the final decision. If the decision is one of rejection, a letter of rejection is issued. If the decision is one of approval, a Letter of Approval in Principle (LAP) is issued.

## **2.5 Make investments**

The applicant next step in the process is for the applicant to settle the investments required under the MPRP. Applicant should purchase the property or lease it out, make the donation to the registered NGO/ organisation of choice and settle the contribution to the Government.

## **2.6 Biometric data taking and issuance of Residency Card**

Once the LAP is issued, applicants and any dependants included in the application may travel to Malta to have their biometric data (fingerprints, photograph and signature) taken by the Agency. Agents should make an appointment for biometrics through our online booking system, accessed via <https://outlook.office365.com/owa/calendar/ResidencyMaltaAgency@govmt.onmicrosoft.com/bookings/>. Appointments via email or phone calls are not entertained.

The biometric data is tied to the issuance of a residency card, this is not a mandatory step in the application process.

Residency cards are only issued once the investment is duly made and all qualifying criteria are met. Each residency card is valid for 5 years, renewable thereafter with the exception of minors turning 14 or 18 years. Minors approaching their 14th or 18th birthday will have a residency card valid up until a month before their birth date.

## **2.7 Annual Compliance**

On a yearly basis, the Agency will ask the agent to submit on behalf of the beneficiary proof of property lease, via the presentation of a contract of lease, as well as proof of sickness insurance cover, via the presentation of the annual policy. This recurs annually for the first 5 years, and then whenever the Agency deems it necessary, at its discretion.

When presenting an application pack, it is highly recommended that all forms and supporting documents are placed in labelled punched plastic sleeves (one per form/document). The plastic sleeves should then be filed within an A4 arch lever file with a spine pocket, thus reducing the risk of misplaced documentation and ensuring easier access to specific documents.

The A4 arch lever file should display name of agent and AKM licence number, as well as Main Applicant's name in a clear manner in the spine pocket.

An index of the documents being submitted in the file is to be included within the covering letter enclosed.

The recommended filing order is detailed in Section 3.1 and should be repeated for each person included within the application pack. It is important to keep in mind that certain documents apply only to the Main Applicant and not to spouse and/or other dependants and vice versa. Any additional information applicant may wish to provide can also be included within the application pack at the end of each applicant's section in the file (e.g. curriculum vitae, property register etc.).
